## WORK EXPERIENCE

### Landscape Horticulturist

#### Terafirma Landscape Architecture

📅 January 2021-June 2026

📍 Bangalore

- Played a pivotal role in the softscape design of over 30 diverse projects across various locations in India.
- Prepared detailed planting plans, accounting for factors such as sunlight exposure, soil conditions, and water requirements.
- Compiled accurate Bill of Quantities (BOQs) for materials required, aiding in budgeting and procurement processes.
- Identified and recommended suitable plant species based on local climate conditions, maintenance requirements, and aesthetic preferences.
- Actively engaged in softscape maintenance, overseeing the nurturing and care of planted areas to ensure their optimal growth and development.
- Conducted frequent on-site visits to monitor progress, address challenges, and ensure adherence to design specifications.

## PROJECTS

### Planting Plan and BOQ Preparation

#### Terafirma

📅 January 2021

- 1. Waterwoods Kalapathar, Andaman- Tropical landscape theme. Our motto was to mimic rainforest theme in our landscape. Using both tropical plant species and locally available resource on undulated land pattern.
- 2. Duke Retreat Lonvala- This place situated on the western ghats of Pune, Maharashtra. Whole concept is to use native species to support local fauna. Also the special highlight was "Biodiversity walk" to showcase our own plant species with unique features which attracts lots of birds and butterflies.
